

need everyone attending your event on the same page?

create a personalized group web page

a one-stop web page for you and your guests.

The best way you can ensure your event goes smoothly is to make sure your guests know all the details. Keep your guests informed with a personalized group web page. This tool gives you a unique web address to send to your attendees that takes them to your very own customized web page. From there, your attendees are just a click away from booking their rooms at the rates you have established for your group at the hotel you have selected.

And that's not all. You can customize your page by selecting a template and color scheme, uploading your own photos and adding important details such as schedules, maps and anything else you want to include about your event. and the best part is...it's free!

how does it work?

Any event with guest rooms at any Hilton family hotel is eligible for a free personalized group web page. After using the booking method of your choice, you will have the opportunity to set up your personalized group web page in one of two ways:

1. If you prefer to take charge yourself, please visit <http://www.hiltonfamily.com/groupage> and enter the details for your event.
2. You can provide your hotel representative with the information you would like to include and your personalized group web page will be created for you.
